# NEW PERFORMANCE GROUP

This Autumn Ballet Akademiet in Aarhus is creating a special performance group for experienced dancers and performer's. During the Autumn we will meet 5 time for rehearsals + performance in December at Bora Bora.

In this group you will meet other dancers and performances with the same passion and ambition for dance. Together we will create a performance lead by professional dancer and visual artist Simon Beyer-Pedersen (DK). During the year you have a possibility to meet other national and international professional dance artists from Aarhus.

This performance group is for national and international people who study, work or maybe moved to Aarhus for university. The main thing is that we work concentrated in selected weekends.

We requirer that each dancer attend aminimum of one technical class a week besides the work weekends. This is so to maintain a minimum physical level when we work together.
